

A large, multinational **airline corporation** selected Planestocks to facilitate the multi-year acquisition of several large inventory lots predominantly comprised of idle C&E material. The MRO selected Planestocks because of the strong relationship developed through participation in our Virtual Consignment program, which generates a steady income stream for the airline throughout its fiscal year.

VENDOR
INSIGHTS

This airline continues to notify Planestocks first of any lot acquisition opportunities, foregoing traditional auctions for more efficient and financially rewarding sale processes.
